TAKE THE STUDIO BEYOND THE ROOM.

Create wherever the story goes.

A proposed mobile production kit for walking tours, events and field reporting.
Plan capture, microphone, encoding, portable power and connectivity together.

AI-generated concept image. Final equipment and services are confirmed in your quote.

MOBILE CAPTURE

Use a practical camera position and microphone for field presentation.

POWER & CONNECTIVITY

Scope runtime, selected network equipment and the route you will cover.

A TESTED LIVE PATH

Confirm ingest, destination and recovery before committing to a broadcast.

Proposed scope: protected carry system, compatible capture/encoder path, audio, portable power, cable management and field pilot.

MOBILE / TV PRO / FIELD PRODUCTION

Custom quote

Inventory existing equipment and test the intended route. The quote defines runtime targets, supported destinations and network costs.

Concept only; final engineering is unverified. Cellular plans, bonded connectivity, cloud services, travel and live operation are separate. Coverage and uninterrupted transmission are not guaranteed; local recording and recovery are scoped explicitly.
